

## MultiGuard Control System

- Modular control arm design for a variety of joystick controls, spreader controls and switch configurations
- 1, 2 and 3 control stick configurations. Either on/off or proportional control sticks are available for a variety of hydraulic system controls
- Optional integrated switches with control sticks for additional operator features such as float, remote control blast and multifunction hydraulics requiring more than 2-axis such as three function wing plows
- Utilizes the new TouchGuard switch control system or the traditional rocker switch system. Conveniently located switch bay in the arm assembly for quick operator access to critical functions
- Optional upper switch bay housing for additional switches & indicators. Now up to 18 accessory switch functions and indicators available
- Compact design allows for easier installation and operation in the cab. Two optional spreader control mounting positions available

The **MultiGuard** control system is one of our newest designs in the StormGuard family of control systems. The wide variety of options for control sticks, spreader and liquid controls along with the new TouchGuard switch system is just the tool you need to customize your truck's hydraulic control system the way you want it.

With the **MultiGuard** unique plug and play features the options are almost limitless. Mix and match the joysticks to fit the features you need for your vehicle. Select from any one of our quality spreader controls. Take advantage of the wide variety of switch options for all of your add-on accessories.

StormGuard is once again proving that the "Snow & Ice Revolution" continues with our new **MultiGuard** system.

If you are tired of compromising with other controls that lack the features of our new **MultiGuard** system, talk to one of our representatives today and let us help make your job easier!

*"We Know Snow"*

Component Technology is a pioneer in snow and ice removal. We definitely have the experience to do the job. From the operator to the fleet manager we understand what you need. That's why the entire StormGuard product line, top to bottom, is the best available when you compare safety, reliability, durability, and ease of maintenance. Our engineering staff consistently proves that it is the most innovative in the industry. This makes us the best at bringing your ideas to reality. We can help you design systems and controls that will do your job right and do it well. We are here to serve you and believe that our total commitment to your success is the key to our mutual success.

**Additional Features:**

- Accepts the complete line of StormGuard spreader controls
- Adjustable console for both height adjustment and side-to-side adjustment provides operator comfort and control
- Integrates with the newly improved CircuitGuard power distribution center and mounting base. Protection for your entire electrical system and accessories.

**MultiGuard Control System** shown *without* optional switch bay and mounting position "wedge"

Front Bay optional for 1, 2 and 3 stick configurations

**CircuitGuard Power Distribution Center**

One Central Location for all Add-on Accessories and Wiring for Ease of Installation and Maintenance.

Optional Accessory Mounting Panels for CircuitGuard Base

Give us a call and find out where you can get into a demo truck, stop by our booth at one of the many trade shows or contact your local dealer and see firsthand how the MultiGuard System by StormGuard fits and feels.
